Good practices:

Austria reported the Number and Value of its exports of major conventional weapons and SALW in its 2018 report.

Room for improvement:

Austria did not include the front page of its 2018 report. It is therefore unclear why Austria has not reported on imports, nor if any information has been withheld for 'commercial sensitivity/national security-related' reasons.

Austria provided no information on how it defines the term 'export'.

Austria aggregated all SALW sub-categories in its 2018 report, in some cases aggregating SALW, and in some cases reporting on small arms and light weapons separately.

Reporting practice summary - 2018

Austria's reporting practice remained the same in its 2018 annual report

Austria did not report imports in 2018.

Transfer summary - 2018: Export Data

- Austria reported exports to 92 countries and territories in 2018. Of these, 61 were ATT States Parties, 10 were Signatories and 14 were non-members (Azerbaijan, Bolivia, Ecuador, Indonesia, Jordan, Kenya, Kuwait, Oman, Qatar, Russia, Saudi Arabia, Sri Lanka, Tajikistan and Tunisia).¹
- Austria reported the export of ten major conventional weapons items: six armoured combat vehicles to Finland and four to Spain, with a total value of €134,400 (US\$158,677).²
- Austria reported the export of 2,476,518 SALW items, with a total value of €172.9m (US\$204.1m).³ Austria aggregated data such that it is impossible to determine the relevant sub-categories of SALW exports.
- In terms of value, the main importers of SALW from Austria were the United States (46 per cent) and Canada (12 per cent).

Transfer summary - 2018: Import Data

- Austria did not report import data in 2018.

1 Austria also reported arms exports to seven non-UN members (Greenland, Holy See, Hong Kong, Kosovo, Macau, New Caledonia and Taiwan).

2 The total value of armoured combat vehicles reported by Austria may not reflect the actual value of these items. It is unclear why the total value reported is relatively low. Austria did not specify which currency is used for reported values of transfers. For this analysis, the ATT Monitor has assumed the currency to be euros.
