Good practices:

Estonia provided a few descriptions and/or comments describing the end-use and/or end-user of imports.

Room for improvement:

Where there was more than one exporting or importing state involved in a small arms export or import, Estonia continued to aggregate all countries together within each weapons sub-category, making it impossible to identify the quantities of small arms that were exported to or imported from each country.

Estonia only provided comments on some imports. It could provide descriptions and/or comments for all reported exports and imports.

Reporting practice summary - 2018

Estonia's reporting remained the same in its 2018 annual report.

Estonia reported **Authorized Numbers** of small arms exports. Though it did not report any exports of major conventional weapons or light weapons, it indicated its practice was to report **Authorized Numbers**.

Estonia reported **Authorized Numbers** of major conventional weapons and small arms imports. Though it did not report any imports of light weapons, it indicated its practice was to report **Authorized Numbers**.
