

## LITHUANIA

Was an Annual Report submitted by 31 May 2017?	Yes
Was the report made public?	Yes
Was a nil report submitted for exports or imports in 2016?	No
Was data withheld for 'commercial sensitivity/national security-related' reasons?	No

### Good practice:

Lithuania provided clear, consistent and disaggregated data for each reported import and export.

Lithuania provided some comments on the transfer and descriptions of items but only did so selectively.

### Room for improvement:

Lithuania left the majority of its comments and description sections blank, including the entire export report.

### Transfer summary - 2016: Export Data

- Lithuania reported exports to seven countries in 2016, all ATT States Parties.
- Lithuania reported the export of 591 items, all of which were rifles and carbines. 92 per cent of these items were exported to Germany.

### Reporting practice summary - 2016

Lithuania did not report major weapon exports in 2016, and reported **Actual Numbers** of major weapons imports. Lithuania changed its reporting practice for SALW in 2016, reporting export and import **Authorizations**, and **Numbers** and **Values** of its exports and imports.<sup>1</sup> In 2015 Lithuania had reported Actual Numbers of SALW transfers.

### Transfer summary - 2016: Import Data

- Lithuania reported imports from 13 countries in 2016.
- Of those, 11 were ATT States Parties and two were Signatories.
- The only major weapon import reported by Lithuania was for eight armoured combat vehicles from Poland.
- Lithuania reported the import of a total of 3,758 SALW items, all of which were rifles and carbines. From Germany (55 per cent), Austria (14 per cent), Czech Republic (12 per cent) and Italy (12 per cent).

<sup>1</sup> Lithuania did not provide a value for its only reported import of a major weapon item.
