

FYR MACEDONIA

Was an Annual Report submitted by 31 May 2017?	No
Was the report made public?	Yes
Was a nil report submitted for exports or imports in 2016?	Yes (for exports)
Was data withheld for 'commercial sensitivity/national security-related' reasons?	No

Good practice:

Macedonia provided descriptions of all imported items.

Room for improvement:

Macedonia aggregated all exporting countries within each sub-category, so that it was impossible to analyse how many items were supplied by each.

Transfer summary - 2016: Export Data

- Macedonia submitted a 'nil' report for exports.

Reporting practice summary - 2016

Macedonia did not provide any definition of the term 'export' in its 2016 Annual Report. In 2015, it defined export as 'Physical transfer of items across a national border,' 'Transfer of title' and 'Transfer of control.' These three components also made up its definition of the term 'import'.

Macedonia submitted a 'nil' export report. It reported **Actual Numbers** of major weapons imports, and reported **Authorized** and **Actual**, and the **Number** of its SALW imports. This was a change in its reporting practice from 2015, when it reported just Authorized SALW imports.

Transfer summary - 2016: Import Data

- Macedonia reported the import of arms from 11 countries in 2016.
- Of these, nine were ATT States Parties and two were Signatories.
- The only major weapon import reported by Macedonia was one armoured combat vehicle from Turkey.
- Macedonia reported imports of a total of 1,922 SALW items in 2016. 73 per cent of these were rifles and carbines, and 27 per cent were revolvers and self-loading pistols.
