REPORTING PRACTICE SUMMARY - 2019

Finland's reporting changed in its 2019 annual report.

Finland reported **Numbers** of exports of major conventional weapons items but did not specify whether they were authorized or actual transfers as it did in its 2018 report. It continued to report **Actual Numbers** of small arms exports. It reported **Numbers** of light weapons exports but did not specify whether they were authorized or actual transfers, after having not reported light weapons in its 2018 report.

Finland continued to report **Numbers** of imports of small arms items and did not indicate whether they were authorized or actual transfers. It aggregated information according to item descriptions and did not identify exporting states as it did in its 2018 report.

**GOOD PRACTICES**

Finland provided descriptions of all items of small arms imports and major conventional weapons exports, and provided descriptions and comments for all light weapons exports.

**ROOM FOR IMPROVEMENT**

Finland aggregated the information it provided for all of its small arms imports according to item descriptions while reporting the exporting states as 'All', so it is impossible to determine the exporting states.

Finland excluded some data for 'commercial sensitivity/national security-related' reasons but did not specify where or how much information was withheld.

**TRANSFER SUMMARY - 2019: EXPORT DATA**

- Finland reported exports to 42 countries and territories in 2019. Of these, 34 were ATT States Parties, four were Signatories and two were non-members (India and Uzbekistan).¹
- Finland reported the export of two major conventional weapons items: two armoured combat vehicles to Sweden.
- Finland reported the export of 192,879 SALW items, the majority of which were 'others' (light weapons) (98 per cent), which were civilian firearms used for hunting and sporting purposes.
- The main importing states were the United States (83 per cent) and Australia (8 per cent).

**TRANSFER SUMMARY - 2019: IMPORT DATA**

- Finland did not specify exporting states in its reported imports in 2019.
- Finland did not report the import of any major conventional weapons.
- Finland reported the import of 114,840 small arms items, all of which were aggregated according to item descriptions, including rifles, shotguns, silencers and other accessories.

¹ Finland also reported imports from two non-UN members in 2019 (Greenland and New Caledonia).
