### REPORTING PRACTICE SUMMARY - 2020

Argentina's reporting changed slightly in its 2020 annual report. It started using the online reporting template as opposed to the standard reporting template it used for its 2019 report.

Argentina continued to report **Actual Numbers** of small arms exports. It did not report major conventional weapons or light weapons exports.

Argentina reported **Actual Numbers** of major conventional weapons imports unlike in its 2019 report, which did not specify whether transfers were actual or authorized. It also reported **Actual Numbers** of all SALW imports.

**GOOD PRACTICES**

Argentina provided descriptions of all of its small arms exports, and provided descriptions and comments on the nature of all of its major conventional weapons imports and for some of its small arms imports.

Argentina provided disaggregated numbers for its small arms exports and imports, both by weapon type and by importing and exporting state, unlike in its 2019 report.

**ROOM FOR IMPROVEMENT**

Argentina did not provide descriptions of imports reported under the rifles and carbines and small arms 'others' sub-categories.

Argentina excluded some data for 'commercial sensitivity/national security-related' reasons but did not specify where or how much information was withheld.

Argentina could provide comments describing the nature of more of its reported imports.
