REPORTING PRACTICE SUMMARY - 2020

Bosnia and Herzegovina's reporting changed slightly in its 2020 annual report.

Bosnia and Herzegovina continued to provide **Numbers** and **Values** for exports and imports of major conventional weapons and SALW items. It continued not to specify whether transfers were authorized or actual.

Bosnia and Herzegovina indicated that it did not exclude any data for 'commercial sensitivity/national security-related' reasons, after indicating in its 2019 report that some information had been withheld.

Bosnia and Herzegovina provided its own definitions of the term 'export' indicating it covers 'transfers of goods, technologies and services of strategic importance outside of the customs territory of Bosnia and Herzegovina'.

GOOD PRACTICES

Bosnia and Herzegovina provided both numbers and values of all reported exports and imports.

Bosnia and Herzegovina provided disaggregated information on SALW imports and exports, both in terms of numbers and values of items.

Bosnia and Herzegovina provided descriptions of all items exported and imported, except for one export. Comments on the nature of its transfers were provided in certain instances.

ROOM FOR IMPROVEMENT

Bosnia and Herzegovina did not specify whether it reported authorized or actual exports or imports, though this may be inferred to some degree by the definitions of the terms 'exports' and 'imports' it provided.
