REPORTING PRACTICE SUMMARY - 2020

Denmark's reporting changed slightly in its 2020 annual report.

Denmark continued to report **Authorized Numbers** of SALW exports. It did not report exports of major conventional weapons.

Denmark reported **Actual Numbers** of major conventional weapons imports, after reporting a combination of actual and authorized numbers of items in its 2019 report. As in its 2019 report, it reported a mix of **Authorized** and **Actual Numbers** of small arms imports and **Authorized Numbers** of light weapons imports.

**GOOD PRACTICES**

Denmark provided descriptions of some items, including all imports of major conventional weapons and some SALW imports.

Denmark indicated clearly that there were no reported exports or imports in specific weapons categories and sub-categories rather than leaving relevant sections of the reporting template blank.

**ROOM FOR IMPROVEMENT**

Denmark continued not to provide information on final importing states for its reported exports of small arms.

Denmark continued to aggregate countries supplying its small arms imports, reporting the exporting states collectively as 'Multiple exporting states', making it impossible in some cases to determine from where small arms items were imported.

**TRANSFER SUMMARY - 2020: EXPORT DATA**

- Denmark did not provide information on final importing states for its exports in most cases.
- Denmark did not report exports of major conventional weapons.
- Denmark reported the export of 3,114 SALW items covering four sub-categories. Of these, the majority were rifles and carbines (68.6 per cent), 'others' (small arms) (19.3 per cent) and revolvers and self-loading pistols (9.1 per cent).
- Denmark named the final importing states for SALW exports in only two cases: 20 items to Somalia and four items to the United States, under 'others' (light weapons).¹

**TRANSFER SUMMARY - 2020: IMPORT DATA**

- Denmark did not provide information on exporting states in many cases.
- Denmark reported the import of 74 major conventional weapons items: 61 armoured combat vehicles from Switzerland (82.4 per cent) and 13 large-calibre artillery systems from Austria and Switzerland (aggregated) (17.6 per cent).
- Denmark reported the import of 12,139 SALW items, covering five sub-categories. Of these, the majority were rifles and carbines (57.3 per cent), 'others' (small arms) (29.1 per cent) and revolvers and self-loading pistols (13 per cent).
- In terms of numbers, the majority of Denmark's imports (86.4 per cent) were from 'Multiple exporting states'. Denmark did not provide a further breakdown of exporters included in these instances.

¹ These are described as 20 Vulkan Maxi de Armor Disrupters to Somalia and four Harpoon Missile Simulators to the United States.
