### REPORTING PRACTICE SUMMARY - 2020

Italy's reporting practice changed in its 2020 annual report.

Italy reported **Authorized Numbers** of major conventional weapons and SALW exports.

Italy reported **Authorized Numbers** of major conventional weapons and SALW imports, after it did not report major conventional weapons imports in 2019.

Italy reported all exports and imports in the ATT reporting template as opposed to the Annex it used to report SALW transfers in its 2019 report.

Italy indicated that it did not exclude data for 'commercial sensitivity/national security-related' reasons, after indicating in its 2019 report that some information had been withheld.

Italy specified that its definitions of the terms 'exports' and 'imports' cover export and import licenses authorized in 2020.<sup>1</sup>

<sup>1</sup> For import licenses, Italy specifies that intra-EU transfers do not require import licenses and so are not included in its annual report.

### GOOD PRACTICES

Italy provided clear, disaggregated data for each reported import and export, including export destination and import source countries, after not doing so in previous reports.

### ROOM FOR IMPROVEMENT

Italy could provide descriptions and comments describing the nature of all reported exports and imports.
