Liechtenstein's reporting changed slightly in its 2020 annual report.

Liechtenstein reported Actual Numbers of small arms exports. It continued not to report exports of major conventional weapons or light weapons.

Liechtenstein reported mainly Authorized Numbers of small arms imports, aside from one case where it reported Actual Numbers. This was a transfer of ‘others’ (small arms) from Austria, described as silencers.
Liechtenstein reported imports from two ATT States Parties.

Liechtenstein did not report imports of major conventional weapons.

Liechtenstein reported imports of 11 small arms items, covering three sub-categories. Of these, the majority were rifles and carbines (54.5 per cent) and revolvers and self-loading pistols (36.6 per cent).

The exporters of small arms to Liechtenstein were Austria (54.5 per cent) and Germany (45.5 per cent).

Liechtenstein provided clear, disaggregated data for all its small arms imports and exports.

Liechtenstein provided comments describing the nature of its transfers. It also noted that small arms exports and imports were non-commercial.

Liechtenstein could provide descriptions for all of its reported transfers as it did in its 2019 report.

Liechtenstein could indicate clearly that there were no reported exports or imports in specific weapons categories and sub-categories rather than leaving relevant sections of the reporting template blank.

- Liechtenstein reported exports to one ATT State Party.
- Liechtenstein did not report exports of major conventional weapons.
- Liechtenstein reported exports of three small arms items, all of which were rifles and carbines to Austria.

- Liechtenstein reported imports from two ATT States Parties.
- Liechtenstein did not report imports of major conventional weapons.
- Liechtenstein reported imports of 11 small arms items, covering three sub-categories. Of these, the majority were rifles and carbines (54.5 per cent) and revolvers and self-loading pistols (36.6 per cent).
- The exporters of small arms to Liechtenstein were Austria (54.5 per cent) and Germany (45.5 per cent).
