### REPORTING PRACTICE SUMMARY - 2020

Norway's reporting changed in its 2020 annual report. It started using the online reporting tool as opposed to the standard reporting template it used for its 2019 report.

Norway did not report exports of major conventional weapons or light weapons as it did in its 2019 report. It reported **Actual Numbers** of small arms exports, after not specifying whether exports were actual or authorized in its 2019 report. It also reported exports under voluntary national categories after not doing so in its 2019 report.
