### REPORTING PRACTICE SUMMARY - 2022

Liechtenstein's reporting changed slightly in 2022.

Liechtenstein continued to report **Actual Numbers** of small arms exports. It did not report any light weapons exports.

Liechtenstein shifted from reporting **Aggregated Numbers** in 2021 to reporting **Actual Numbers** of small arms imports in 2022. It did not report any light weapons imports.

### GOOD PRACTICES

Liechtenstein provided clear, disaggregated data for all its small arms imports and exports.

Liechtenstein provided comments describing the nature of its transfers. It also included partial descriptions of its transfers.

Liechtenstein indicated that the imports reported in the small arms 'others' sub-category were silencers.

### ROOM FOR IMPROVEMENT

Liechtenstein could provide descriptions for all of its reported transfers.

Liechtenstein could indicate clearly that there were no reported exports or imports in specific weapons categories and sub-categories rather than leaving relevant sections of the reporting template blank.
